### REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Roth discloses a lossless coding scheme that maps unconstrained binary sequences into sequences that obey the (d,k)-RLL constraint while offering a degree of DC control. In Roth et al's encoding method, additional bits called merge bits are inserted between the 14-bit-codewords to control the low frequency or DC content of the bit stream.

Prior art of record, taken individually or collectively, fails to disclose an apparatus or method for converting a series of data word into a modulated signal with coding rate of m/n which generates the intermediate sequences, scrambles the intermediate sequence, translate the alternate sequence and selects one (d, k) constrained sequence in the manner as claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Amanda T Le whose telephone number is (703) 305-4769.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Stephen Chin can be reached on (703) 305-6714. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
